im4java HowTos

Table of contents

1. Overview

If you want to share your ideas and experiences, please write a HOWTO. You should use the template available in the source-distribution (*doc-src/xdocs/docs/howto-template.xml*).

2. Available HowTos

This is the list of currently available HowTos.

HowTo	Description
Howto add support for a new tool	A step-by-step guide on howto add support for a new commandline-tool to im4java. This howto is not yet written but due for the next release of im4java.
